## Equal Opportunities Statement

---

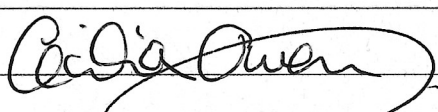

---

Semitones recognises that discrimination exists throughout society and seeks wherever possible (within the scope of our limited resources) to implement policies and practises to ensure that no-one is discriminated against on the basis of age, colour, race, culture, sex, disability, sexual orientation, religion or ethnicity.

We recognise that this statement is not definitive. We will review this regularly, with particular reference to our work, rehearsals, performances and how we monitor equal opportunities practises.

This policy was reviewed and agreed at the AGM on:
