

Bringing live music to the community

Vulnerable Adults Safeguarding Statement

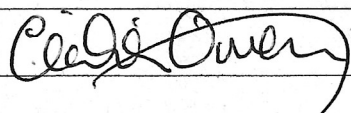

Semitones is a group of amateur musicians who enjoy playing music and performing for older adults. We are fully committed to respecting and valuing all adults, whatever their abilities or disabilities.

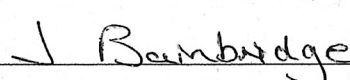

We do this by:

- Ensuring that there is always a qualified or unqualified member of staff available in the room while we are playing
- By not being on our own with a resident
- By playing music which residents enjoy and encouraging them to join in
- By being respectful and not talking while our conductor is talking or while participants are talking
- By talking and interacting with both residents and staff

This policy was reviewed and agreed at the AGM on:
